Discussion:

During this team meeting the team expanded upon the main ideas needed to make a great proposal for our app. Jordan researched the possible strategies we can take to be successful in the target market. Abiodun expanded upon the innovation, like how we can be unique and different from everyone else in the field, and what is the best way to set ourselves apart from the competition. Russell looked into how we could possibly disrupt the market, how many potential users we could have, and will we have a consistent user base.

Conclusions:

Overall in this team meeting, we have done a lot of research mainly on our app proposal such as the strategy, innovation, and disruption of our product when it gets deployed into the market.
